## INTRODUCTORY NOTE

The Secretary General of the Eurodyssey Programme required the Monitoring Centre for Employment and Vocational Training of the Government of the Azores (OEFP) to implement a Eurodyssey Monitoring System. OEFP took up the challenge and started preparing the project in June 2011 in cooperation with the General Secretariat.

The system builds on a questionnaire to be answered by ex-trainees 6 months after the end of the traineeship. The General Secretariat regularly sends OEFP a list of trainees, comprising their name, region of origin, date of beginning of the traineeship and email address. Regions are solely responsible for sending the lists of trainees to the General Secretariat. As the 6-month period comes to an end, the System will automatically generate an email stating its own goal and asking the trainee to complete the questionnaire, which is available through a link in the email itself. All documents, including the questionnaire, are available in four languages: Portuguese, French, English and Spanish, so that the ex-trainee can select her/his preferred language.

This second Report comprehends the traineeships that started after January the 1st 2012 and whose 6-month period after the traineeship ended on December 31st 2013. From the 196 questionnaires sent, 70 got answered to. As previously stated, this Report includes only the regions that provided information to the General Secretariat and, among those, only the replies from the respective ex-trainees who accepted answering to the questionnaire.
